EDUCATION

MINDORO STATE UNIVERSITY Calapan, Oriental Mindoro, PH
Bachelor of Science in Information Technology Jun 2026

- Cum Laude, GWA – 1.47
- Relevant Coursework: Software Engineering, Web Development, Database Systems, Human-Computer Interaction, Systems Analysis & Design, Systems Integration and Architecture, Object-Oriented Programming, Data Structures & Algorithms, Operating Systems, Multimedia System
- Capstone Role: Technical Writer · UI/UX Designer · QA Analyst · Administrator

WORK EXPERIENCE

NEW SAN JOSE BUILDERS INC. Quezon City, PH
Software Developer | UI/UX Designer | QA Analyst | Technical Writer| Technical Support 2025 - 2026

- Part of the Developer Team, focused on QA testing responsibilities across multiple internal software systems, including the company's Ticketing System, Employee Self-Service System, and Human Resource Management System.
- Identified, documented, and reported software defects; verified bug fixes and validated system functionality to ensure stable, production-ready releases.
- Authored user manuals and test case documentation for internal and client-facing deliverables.
- Collaborated with development teams during sprint reviews to ensure quality requirements were met before releases.
- Provided technical support to employees across different departments, troubleshooting system and software issues, assisting users with technical concerns, and coordinating issue resolution with relevant teams.
- Developed a web-based Venue Appointment System as an individual project using PHP, Node.js, and MySQL during the 486-hour internship.

UNIVERSITY PROJECTS

RM'S AI INVENTORY & E-COMMERCE SYSTEM – Capstone Project 2025
QA Analyst · Technical Writer · UI/UX Designer · Administrator

- Led UI/UX design drafting for an AI-powered inventory and e-commerce platform built with Node.js, PHP, and MySQL, producing user flows, wireframes, and interactive prototypes in Figma; iterated designs based on adviser and panel feedback.
- Authored technical documentation — including user manuals, admin guides, functional specifications, and use-case diagrams — for end-users and the capstone review panel.
- Executed QA testing covering end-to-end workflows, wrote and ran 40+ test cases, tracked defects to resolution, and validated the accuracy of AI-driven inventory classification features.
- Administered platform accounts, role-based access permissions, and system configuration, including inventory records and product/order data setup for testing and demo purposes.

MINSU VAS — VENUE APPOINTMENT SYSTEM 2025
Developer · UI/UX Designer · QA Analyst · Administrator

- Designed and partially developed a web-based venue appointment system for Mindoro State University using PHP and MySQL, producing 7+ fully designed screens covering booking requests, calendar-based scheduling, approval workflows, and admin flows.
- Validated booking and scheduling logic across student and admin roles, checking for conflicting reservations and form input errors prior to review.
- Administered system configuration and user access settings, defining permission levels for students, faculty, and venue administrators.

ILOVEMILKTEA E-COMMERCE KIOSK 2024
Developer · UI/UX Designer · QA Analyst · Administrator

- Designed and developed the full UI/UX and front-end for a milktea kiosk ordering platform using Node.js, PHP, and MySQL, covering menu browsing, cart, and checkout, from wireframes to pixel-perfect final screens.
- Implemented branding assets, visual design system, and interactive prototypes in Figma and Canva.
- Performed QA testing across the ordering flow and multiple devices, logging and resolving UI and functional bugs prior to launch.
- Administered the platform post-launch, managing product listings, pricing, orders, and site content updates.

PANCHITAN NI UNCHANG — WIX (CRM) E-COMMERCE 2023
Developer · UI/UX Designer · QA Analyst · Technical Writer · Administrator

- Designed and built a Wix CMS-based online ordering platform for a local Filipino restaurant using PHP and MySQL for custom backend functionality, setting up the product catalog and checkout flow, and integrating PayPal as the payment gateway.
- Produced UI/UX designs, branding assets, and full site layout using Wix's visual editor; authored technical documentation covering system setup and user workflows.
- Tested the ordering and payment workflow end-to-end, verifying order accuracy and PayPal transaction handling before go-live.
- Administered the Wix CMS and PayPal integration post-launch, managing site content, menu updates, and incoming orders.

MINSU CLINIC SYSTEM 2022
Developer · UI/UX Designer · QA Analyst · Technical Writer · Administrator

- Built a PHP and MySQL-based clinic management system for patient records, appointment scheduling, and consultation logs.
- Designed the UI/UX and database structure, ensuring an organized and user-friendly system for clinic staff.
- Conducted functional and end-to-end testing, identified defects, and verified system functionality and data accuracy.
- Created technical documentation and user guides and assisted with system administration, updates, and troubleshooting.

ADDITIONAL

Technical Skills: UI/UX Design, QA Testing, Test Case Creation, Bug Reporting, Technical Documentation, System/Platform Administration; Proficient in JavaScript, PHP, Python, C#, MySQL, HTML5, CSS3, MySQL, Bootstrap, Node.js & Express.js, WordPress, Wix, Git, GitHub; Experienced with User Research, End-User Training, Design Systems.
Software Testing: Unit, Integration, System & Acceptance Testing (Levels of Testing); Smoke, Sanity, Regression & End-to-End Testing (Functional); Performance, Load, Stress, Security & Usability Testing (Non-Functional); Manual & Automation Testing (Execution Methods).
Design Tools: Canva (graphic design, branding & visual content production) · CapCut (video editing & short-form content creation)
AI & Design Tools: Experienced in Canva, Capcut, ChatGPT, Gemini, and Deepseek.
Certifications & Training: Fortinet Certified Associate in Cybersecurity · Fortinet Certified Fundamentals in Cybersecurity · Certificate in Microsoft Data Analytics · CodeChum Python Programming 2.
Professional Strengths: Detail-Oriented · Documentation-Driven · Collaborative · Iterative Design Thinker · Strong Client Communication · Project Management.
Tech Interests: UI/UX Research, Design Systems, Accessibility, Human-Computer Interaction (HCI), QA Automation, Software Testing, Bug Tracking, Frontend Development, Responsive Design.

ACTIVITIES

FILM PRODUCTION 2023 – Present
Director, Editor & Videographer

- Directed, shot, and edited "Alpas" — a short film exploring a young woman's resilience; produced both a feature cut and a standalone trailer, published on YouTube.
- Directed, shot, and edited "On the Move With Aling Lorena" — a documentary profiling a long-tenured female vendor at Calapan City's public market.
- Applied cinematography, storytelling, and post-production editing skills that directly inform visual composition and user empathy in UI/UX design work.
